Supposedly the Aries ingress is for the year or at least the first 3 months  
 Every position (13) touches into the state natal and the state prog to the ingress  
 The same is true for the Cancer ingress, surprisingly the MC/Asc for the two ingresses is almost exact

The MC represents south and the IC represents north of Denver?  
 Mars is om the south, fires  
 Nep/Moon is in the north, flood
